

A Unique Opportunity

[Revelstoke Massage Therapy Clinic](#) is seeking a committed, full-time RMT to join our established clinical practice. Launched in 1992 and located in the heart of downtown Revelstoke, it is the longest-standing therapeutic massage clinic in the community. This unique opportunity includes:

- Access to your own furnished treatment room, with natural light, wood floors, and lots of storage
- Large reception and staff area
- On site laundry
- Access to Jane software booking and accounting system
- Full control over your own schedule
- A negotiable, affordable flat rate that covers all costs (heat, hydro, snow removal, Jane etc.)
- Free parking
- Clinical and business mentorship.

Owner/operator David Walker has been a full-time RMT for over 30 years. Over time David has mentored a number of RMT's who have subsequently established their own successful practices, as well as supervised numerous OVCMT clinical practicums. His empathetic, effective approach has led to a well-established, thriving practice. As David begins working towards retirement over the next 3 to 5 years, we are seeking an RMT interested in inheriting the practice, in full, at the end of his career. This 'bonus' will include all business assets with the exception of the property itself, at no additional cost.

Your time with us will be an investment in your future.

Revelstoke is a wonderful place to live – a vibrant community perfect for those who seek an active lifestyle, a great place to raise a family, and more. Access to medical care is exceptional, with a full slate of family doctors accepting new patients, resident and visiting surgeons, and numerous supplementary health care practitioners. While we realize that finding housing can be a challenge, we are willing to be patient and do what we can to support the right person.

We look forward to meeting you!
